2007-2008 Registration Planning Worksheet

This worksheet is provided only as a tool for planning the courses you will select in SPAN. You WILL NOT turn this worksheet in.

Directions:

1. Be sure that you are planning according to your *Four-Year Graduation Plan* that you worked on with your counselor.
2. Check at least one **Course of Study** AND one **Career Pathway**. Mark the "IB" box if you are an **IB** student.
3. List the numbers and names of the courses you plan to take next year. Sign up for the number of courses equal to the number of instructional periods (7 + lunch for a total of 8) and **list AT LEAST SIX alternative electives**. Each elective and alternate elective listed should be different. For year-long courses, put the year-long course number in the top set of boxes. For semester courses, place one semester course in the top set of boxes and one semester course in the bottom set of boxes. Refer to *Short Course Listing* to get course numbers. When selecting your courses you will match the course names and numbers you record here with those you want to select in SPAN. Remember that students on track to graduate may take a flex period. The flex period is considered an elective course selection that does not count for credit.
4. Be sure to ask your teachers for the appropriate recommendations.
5. **Students who are interested in taking a 0 or 9 period course must complete a "0 and 9 Registration Form" which will be turn in with course verifications after SPAN closes for course selection.**

Please talk about this process and your course selections with your parents.
